

# PowerSchool Unified Classroom Parent Portal Navigation

The Kodiak Island Borough School District has upgraded to the new Unified Classroom experience from PowerSchool. There are many exciting new features to help parents stay in touch with their child's education. This guide will help you navigate through Unified Classroom.

## PowerSchool Parent Portal

The old parent portal features are still available in Unified Classroom. From the Unified classroom home page select **Quick Links**, then select the **Main Portal Page**. The parent portal will open in a new tab with all of the navigation links on the left side.

Click Quick Links then Main Portal Page to Navigate to the Legacy Parent Portal.

Click Here to Select Another Student. Then Use the Menu to Switch to Another Student or Term

## Switching Between Students

If you have multiple children tied to your PowerSchool account, you can switch between them on the Unified Classroom page by clicking on the arrow next to your child's name. This will bring a new drop down into focus which can be used to switch to another child. After selecting another child, simply click on a class tile to proceed.

If you need to have additional students added to your account, or need help creating an account, you should call the school your child is attending.
