Heidi Alonzo

Math: Heidi Alonzo models every quality you would hope to see in a student. During the first semester, Heidi completed every assignment on time, with great accuracy, detail, and conscientiousness. Her meticulousness propels her to a rich mathematical understanding, which she elucidates on exams. I appreciate her kindness and patience as she works beside her peers, quietly encouraging and helping them, boosting their mathematical knowledge. ~ Alexis Jackson

Science: This is my second opportunity to have the wonderful Heidi Alonzo in class. She blows me away with her motivation, determination, sense of responsibility and her integrity. Each and every assignment that she turns in to me is on time or turned in even before the due date. Her work always confirms that she puts forth 100% of effort to complete it. I’ve always been impressed with Heidi, even when I had the opportunity to have her in class 3 years ago. Even then she was a hard worker and successful student. She has continued to demonstrate that she will, without a doubt, continue to be successful well beyond her high school years. ~ Kinsey Allen
