

# Shaping Alaska's Future

## Academic Excellence in AP Studio Art

### Abraham Fields

*Abraham earned recognition for the quality of his work in AP Studio Art during the first semester of the 2018/19 academic year. Abraham comes into class with a positive creative energy, that not only helps him with his own pieces but inspires those around him. Abraham routinely pushes boundaries through experimentation with techniques and subject matter producing truly inspired works. Not only did Abraham choose to challenge himself by taking an AP studio art class, but he is also taking Advanced Art as well. He has risen to this challenge and has been able to create 3 to 4 pieces each month that are creative and thought provoking at a high-level of craftsmanship.*
