

## Shaping Alaska's Future

## Academic Excellence in AP Calculus

### Cole Scott

*Cole is currently taking AP Calculus, a challenging topic by any criteria. The characteristic that I most appreciate about Cole is his boldness. He persistently and eloquently communicates and defends his mathematical thinking. He does not hesitate to share his thoughts. He is confident without being boastful. He listens to others and responds thoughtfully and respectfully. All of these habits make him a joy to have as a student. Excellent work Cole.*
