When asked to select a student for 2nd semester Academic Excellence, it was not hard to choose a student. His nomination has been on my mind for weeks. He is an awesome student who is everything good you want in a student. He is timely, kind, pays attention to detail, patient, responsible, reliable and when a job needs done, he is the 1st to jump up and get it done. I enjoy his quite mild-mannered personality. I have observed him many times being helpful to his classmates and encouraging them to get their homework done. If he has questions he asks. If he is going to be gone for sports, he asks what homework he need to get done. It is refreshing to have such a responsible young man in class.
