

# Shaping Alaska's Future

## Academic Excellence in Indian Ed & Online Learning

### John Norton

*INDIAN EDUCATION - I am nominating John Walter Norton, an Alaska Native student who has always had a grade point average of 4.0. This senior has always been a respectful student. John is engaged in learning. I call him our modern day Albert Einstein. Although I had very little interaction with him, I saw and watched him from a distance to where he offers his help and knowledge to whomever approached him. I can see this young man famous one day. His grade point averages throughout his four years in high school should say enough of how much he deserves this award. - Georgianna Spear*

*AKTEACH - John Norton is nominated for Academic Excellence in AKTEACH Online Learning. He completed his Healthy Living course with a grade of 95% (A) and his Spanish II with a grade of 92% (A-). John worked on these courses independent from the AKTEACH classroom and on-top of his KHS schedule of AP courses. He worked to maintain his progress and to stay on-track with his target. In his Healthy Living course, John answered each question thoughtfully and thoroughly. It is for these reasons that AKTEACH would like to recognize John's efforts in Online Learning. - Peggy Azuyak*
