

Shaping Alaska's Future

Academic Excellence in Social Studies

Jordan Hayden

Jordan Hayden has earned this prestigious recognition as a student in world history. As a student, Jordan is a commendable leader in our class, elevating discussions with poignant questions and astute observations. Jordan is an academic sponge soaking up knowledge, and building upon this learning throughout this school year. Jordan's daily attitude inspires her peers and myself, as she embraces the importance of the learning and recognizes cause and effect while fusing past and present alike. Jordan is a stellar student in world history, and brings great joy to our classroom assembly, which, from a teacher's perspective, measurably improves the dynamics of daily class learning. Bravo Jordan!
