

# Shaping Alaska's Future

## Academic Excellence in Science

### Naomi Daniher

*I have had Naomi Daniher in my Earth Science class over the first semester. Naomi has great dedication to her school work in Earth Science. She comes to my class prepared and ready to learn each day. She is very curious about the ideas we are covering and comes with many questions. Naomi is a person who always has her work done and it is done to high standards. She is very mindful that her grades are important and she puts her best foot forward as it pertains to work. Naomi has a great personality and is always very pleasant in my class. I know that Naomi will continue to do great work in my class and hope to have her in future classes. Her parents should be very proud of her accomplishments so far this year.*
