

A stylized map of Alaska with a green landmass and blue water, set against a background of abstract geometric shapes in shades of red, orange, and yellow.

Shaping Alaska's Future

Academic Excellence in Culinary Arts

Yasuhiro "Hiro" Yamashita

Hiro has shown excellence in culinary arts and in FCCLA this year in many ways. His work in the lab shows skill and precision. He often takes the lead in his group to ensure the product is executed well. His assignments often go well beyond the requirements and show an in-depth knowledge in the subject as well as a passion for the culinary arts.

Hiro is a joy to have in class, and a great addition to FCCLA. He is always willing to help with catering events, often making food for 200 people or more, and spends much of his free time engaged in FCCLA's work with the community. He is clever, cheerful and engaged in his work.
