

# Shaping Alaska's Future

## Academic Excellence in Culinary

### Alliah Baisa

*I am excited to recognize Alliah Baisa for academic excellence in the field of Culinary Arts. Culinary Arts requires attention to detail, dedication, hard work, leadership, and creativity. Alliah has shown exceptional skill in the kitchen. She has made some very complicated desserts, including a banana cream pie with Chantilly cream roses, and a plated chocolate tart with raspberry coulis, whipped cream, and a beautifully arched tuile. They were both beautiful and creative. She is a hard worker and efficient in the kitchen. She always has a clean station and does her own dishes. The other students value her opinion and come to her with questions. When that happens, she is happy to help or give advice. One time she even offered to come in and help with a catering event when she was leaving on an airplane in a few hours. Alliah not only has exceptional skill in the kitchen, she also applies herself in the classroom with diligence. She has a drive to understand the material and make the connections to the kitchen. I look forward to seeing what she will accomplish in the future. ~ Ms. Wendy*
