## Academic Excellence in Woods Technology

### Kylie Arneson

*I am pleased to announce that the Fall 2022 candidate for Academic Excellence in the area of Woods Tech goes to Kylie Arneson. Kylie has been consistent each day from the first day of class by showing up on time, smiling and prepared. She immediately showed her passion for creativity and flair as well as an interest in mastering both hand and power tools. Kylie has challenged herself to make her project designs both unique and functional as well as very interesting and clever. Also of importance, Kylie is a committed classmate. She is willing to help someone through a tedious step or just offer support or help on a job that goes easier and safer with a qualified partner such as herself. I am excited to see Kylie's progress this second semester as I'm sure she will continue to do 10/10 work on all of her projects and assignments. Thank you, Kylie, for all of your dedication and maturity towards your schoolwork.*
