Final Official Transcript Ordering

In May & beyond, students will request their final official transcript be sent to post-secondary schools through Parchment.com, an electronic transcript delivery service.

When students place their final transcript order prior to graduation, they should choose the option "Hold for Final Grades" so semester 2 grades and graduation date appear on their final transcript.

Physical copies of student's final transcript, including an official and unofficial copy, will be mailed to their address on file by June 13th, 2025.

COMMON APP

When applying through Common App make sure to list Jason Fox as your counselor, including his email address
jfox01@kibsd.org

Alternate ways to backup For students who aren't returning

NOTE: None of the methods on this page are officially supported by KIBSD, if you lose a file in you google drive, or Dropbox, we can't help you get them back.

These methods are intended for students who won't be returning, as all their stuff will be deleted a few months after they leave the district (via graduation, moving, etc.)

Google Drive:

1. Make sure Google Chrome is installed on your device, if not, grab it from Self-Service.
2. Sign into your google account if you have one, otherwise you have the option to create one.
3. Once signed into your account, go to "drive.google.com"
4. The page will start you on the 'mobile' version of the website, but this version is harder to use. Select the 'hamburger' (three lines stacked on each other) in the top left of the page.
5. Under 'Help' and 'Privacy policy' select 'Desktop Version'
6. Once the website changes to the desktop version, there is a little plus sign in the upper left that says 'new'
7. Select that and you will be given several options to upload various files and folders, with further choices to upload pictures, videos, and files.

Backing up Notability to Other accounts:

1. Open Notability on your iPad.
2. Select the gear icon in the upper left corner of the app.
3. Select "Auto-backup" in the menu that appears.
4. Select whichever service you have an account to back-up to (google drive, Dropbox etc.).
5. Log in to the service in the pop-up window with your account information.
6. After logging in, select "Subjects to back up" a little below the "OneDrive" selection.
7. Select everything you want to back up. (Especially the "Unfiled Notes")
