2017 YOUTH RISK BEHAVIOR SURVEY

Kodiak Island Borough School District

Sample Description:

District Level - All regular public schools containing grades 9, 10, 11, or 12 in districts who chose to participate in the 2017 YRBS.

Class Level - All classes meeting during a particular period of the day were included in the sampling frame.

Response Rates:

Schools - 100%  9 of 9 sampled schools participated.
Students - 78%  487 of the 624 sampled students submitted questionnaires.
Overall response rate - 100% * 78% = 78%

Note:

Because the overall response rate equaled or exceeded the 50% threshold established for schools that administer surveys to a sample of students, the data are weighted and are representative of the entire student body.

Confidence intervals are generated where there are at least 100 survey responses.

Alaska Statewide Traditional High School Sample

Sample Description:

School Level - All regular public schools containing grades 9, 10, 11, or 12
with enrollments of ten or more were included in the sampling frame.
Schools were selected systematically with probability proportional to
enrollment in grades 9 through 12 using a random start.
43 schools were sampled.

Class Level - All classes meeting during a particular period of the day
were included in the sampling frame. Systematic equal probability sampling
with a random start was used to select classes from each school
that participated in the survey.

Response Rates:

Schools - 93%  40 of 43 sampled schools participated
Students - 66%  1,343 of the 2,007 sampled students submitted questionnaires.
            1,332 questionnaires were usable after data editing.
Overall response rate - 93% * 66% = 62%

Special Note:

Because the overall response rate equaled or exceeded the 60% threshold
established by the Centers for Disease Control (CDC) for statewide random samples,
the data are weighted and are representative of the entire student body of Alaska
students in traditional high school settings. Confidence intervals are generated where
there are at least 100 survey responses.
Among students who rode a bicycle during the past 12 months, the percentage who rarely or never wore a bicycle helmet (Risk):
- Kodiak Island Borough School District: 69.2%
- Alaska Statewide: 71.2%

Percentage of students who rarely or never wore a seat belt when riding in a car driven by someone else (Risk):
- Kodiak Island Borough School District: 74.5%
- Alaska Statewide: 7.6%

Percentage of students who rode one or more times during the past 30 days in a car or other vehicle driven by someone who had been drinking alcohol (Risk):
- Kodiak Island Borough School District: 47.7%
- Alaska Statewide: 16.4%

Data statistically unreliable (DSU) indicates less than 100 respondents.
Among the students who drove a car or other vehicle during the past 30 days, the percentage who drove one or more times when they had been drinking alcohol (Risk)

- Kodiak Island Borough School District: 5.9%
- Alaska Statewide: 4.2%

Among students who drove a car or other vehicle during the past 30 days, the percentage of students who drove when they had been using marijuana (one or more times during the past 30 days) (Risk)

- Kodiak Island Borough School District: 8.2%
- Alaska Statewide: 10.7%

Among students who drove a car or other vehicle, the percentage of students who talked on a cell phone while driving (on at least 1 day during the past 30 days) (Risk)

- Kodiak Island Borough School District: 37.7%
- Alaska Statewide: 34.6%

Among students who drove a car or other vehicle during the past 30 days, the percentage who texted or e-mailed while driving (Risk)

- Kodiak Island Borough School District: 36.4%
- Alaska Statewide: 28.8%

Data statistically unreliable (DSU) indicates less than 100 respondents.

Prescription Pain Medicine Misuse & Perception of Harm - Risk & Protective Behaviors

☐ Kodiak Island Borough School District: Traditional HS 2017
☐ Alaska Statewide: Traditional HS 2017

Data statistically unreliable (DSU) indicates less than 100 respondents.

Indicator

Percentage of students who have taken prescription pain medicine without a prescription from a doctor or differently than how a doctor told them to use it one or more times during their life (Risk)

- Kodiak Island Borough School District: 11.3%
- Alaska Statewide: 15.0%

Percentage of students who took prescription pain medicine without a prescription from a doctor or differently than how a doctor told them to use it one or more times during the past 30 days (Risk)

- Kodiak Island Borough School District: 6.2%
- Alaska Statewide: 6.1%

Percentage of students who think people have moderate risk or great risk of harming themselves if they use prescription pain medicine without a prescription from a doctor or differently than how a doctor told them to use it (Protective)

- Kodiak Island Borough School District: 72.0%
- Alaska Statewide: 74.5%

Percentage of students whose parents consider it wrong or very wrong for them to use prescription pain medicine without a prescription from a doctor or differently than how a doctor told them to use it (Protective)

- Kodiak Island Borough School District: 85.8%
- Alaska Statewide: 85.7%

Percentage of students who think their friends feel it would be wrong or very wrong for them to use prescription pain medicine without a prescription from a doctor or differently than how a doctor told you to use it (Protective)

- Kodiak Island Borough School District: 77.2%
- Alaska Statewide: 73.5%
Percentage of students who had used any form of cocaine, including powder, crack, or freebase one or more times during their life (Risk)

Percentage of students who had sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high one or more times during their life (Risk)

Percentage of students who had used heroin one or more times during their life (Risk)

Percentage of students who used heroin one or more times during the past 30 days (Risk)

Data statistically unreliable (DSU) indicates less than 100 respondents.
Other Drugs - Risk Behaviors

- Percentage of students who had used methamphetamines one or more times during their life (Risk)
  - Kodiak Island Borough School District: 4.8%
  - Alaska Statewide: 2.9%

- Percentage of students used methamphetamines one or more times during the past 30 days (Risk)
  - Kodiak Island Borough School District: 2.3%
  - Alaska Statewide: 1.6%

- Percentage of students who had used ecstasy one or more times during their life (Risk)
  - Kodiak Island Borough School District: 6.2%
  - Alaska Statewide: 3.9%

- Percentage of students who had ever used synthetic marijuana (also called K2, Spice, fake weed, King Kong, Yucatan Fire, Skunk, or Moon Rocks) during their life (Risk)
  - Kodiak Island Borough School District: 6.0%
  - Alaska Statewide: 6.2%

Data statistically unreliable (DSU) indicates less than 100 respondents.
**2017 YOUTH RISK BEHAVIOR SURVEY**

**Sexual Behavior - Risk Behaviors**

- Kodiak Island Borough School District: Traditional HS 2017
- Alaska Statewide: Traditional HS 2017

### Indicator

**Percentage of students who had ever had sexual intercourse (Risk)**

- 2.2% (Kodiak Island)
- 36.9% (Alaska Statewide)

**Percentage of students who had sexual intercourse for the first time before age 13 years (Risk)**

- 0.7% (Kodiak Island)
- 2.2% (Alaska Statewide)

**Percentage of students who have had sexual intercourse with four or more people during their life (Risk)**

- 5.2% (Kodiak Island)
- 10.4% (Alaska Statewide)

**Percentage of students who have had sexual intercourse with at least one person during the past 3 months (Risk)**

- 21.6% (Kodiak Island)
- 25.2% (Alaska Statewide)

**Among students who had sexual intercourse during the past 3 months, the percentage who drank alcohol or used drugs before last sexual intercourse (Risk)**

- 20.6% (Kodiak Island)

---

Data statistically unreliable (DSU) indicates less than 100 respondents.
Among students who had sexual intercourse during the past 3 months, the percentage who used a condom during last sexual intercourse (Protective)

Among students who had sexual intercourse during the past 3 months, the percentage who used birth control pills to prevent pregnancy (Protective)

Among students who had sexual intercourse during the past 3 months, the percentage who used an IUD or implant to prevent pregnancy (Protective)

Among students who had sexual intercourse during the past 3 months, the percentage who used a birth control shot, a patch, or birth control ring to prevent pregnancy (Protective)

Data statistically unreliable (DSU) indicates less than 100 respondents.
Among students who had sexual intercourse during the past 3 months, the percentage who used birth control pills, an IUD or implant, or a birth control shot, patch, or ring to prevent pregnancy (Protective)

- Kodiak Island Borough School District: Traditional HS 2017
- Alaska Statewide: Traditional HS 2017

Among students who had sexual intercourse during the past 3 months, the percentage who used both a condom during last sexual intercourse and BC pills, an IUD or implant, or a shot, patch, or birth control ring to prevent pregnancy (Protective)

Among students who had sexual intercourse during the past three months, the percentage who used no method of birth control to prevent pregnancy (Risk)

Data statistically unreliable (DSU) indicates less than 100 respondents.
2017 YOUTH RISK BEHAVIOR SURVEY

Body Weight & Diet - Risk & Protective Behaviors

- Kodiak Island Borough School District: Traditional HS 2017
- Alaska Statewide: Traditional HS 2017

**Indicator**

- Percentage of students who are overweight (i.e., at or above the 85th percentile but below the 95th percentile for body mass index, by age and sex) (Risk)

- Percentage of students who are overweight or obese (i.e., at or above the 85th percentile for body mass index, by age and sex) (Risk)

- Percentage of students who ate fruits two or more times per day and ate vegetables three or more times per day during the past 7 days (Protective)

- Percentage of students who drank a can, bottle, or glass of soda or pop zero times during the past 7 days (Protective)

- Percentage of students who drank a can, bottle, or glass of sports drink zero times during the past 7 days (Protective)

- Percentage of students who drank a can, bottle, or glass of an energy drink zero times during the past 7 days (Protective)

- Percentage of students who drank soda or another sugar-sweetened drink (including sports drinks and energy drinks) zero times during the past 7 days (Protective)

**Percentage of Students**

- 0% 20% 40% 60% 80% 100%

Data statistically unreliable (DSU) indicates less than 100 respondents.
**Physical Activity - Protective & Risk Behaviors**

- **Percentage of students who were physically active for a total of at least 60 minutes per day on all seven of the past 7 days (Protective)**
  - Kodiak Island Borough School District: Traditional HS 2017: 18.5%
  - Alaska Statewide: Traditional HS 2017: 48.4%

- **Percentage of students who did exercises to strengthen or tone their muscles (e.g. push-ups, sit-ups, or weight lifting) on three or more days during the past 7 days (Protective)**
  - Kodiak Island Borough School District: Traditional HS 2017: 49.9%
  - Alaska Statewide: Traditional HS 2017: 48.6%

- **Percentage of students who watched TV, played videos, or used the computer for reasons other than school work for three or more hours per day on an average school day (Risk)**
  - Kodiak Island Borough School District: Traditional HS 2017: 53.1%
  - Alaska Statewide: Traditional HS 2017: 57.7%

- **Percentage of students who attended physical education (PE) classes five days in an average week when they were in school (Protective)**
  - Kodiak Island Borough School District: Traditional HS 2017: 6.7%
  - Alaska Statewide: Traditional HS 2017: 17.7%

Data statistically unreliable (DSU) indicates less than 100 respondents.
Percentage of students had been taught in school about preventing sexually transmitted diseases (STD) (Protective)

Percentage of students who had seen a dentist (for a check-up, exam, teeth cleaning, or other dental work) during the past 12 months (Protective)

Percentage of students who got 8 or more hours of sleep on an average school night (Protective)

Percentage of students who have had serious difficulty concentrating, remembering, or making decisions because of a physical, mental, or emotional problem (Risk)

Percentage of students who had a concussion one or more times from playing a sport or being physically active during the past 12 months (Risk)

Data statistically unreliable (DSU) indicates less than 100 respondents.
2017 YOUTH RISK BEHAVIOR SURVEY

Other Health - Protective & Risk Behaviors

Kodiak Island Borough School District: Traditional HS 2017
Alaska Statewide: Traditional HS 2017

Indicator | Percentage of Students
---|---
Percentage of students who usually slept in the home of parent or guardian during the past 30 days (Protective) | 91.3%
Percentage of students who usually slept in the home of a friend, family member, or other person because they had to leave their home or their parent or guardian cannot afford housing (during the past 30 days) (Risk) | 5.4%
Percentage of students who usually slept in a shelter or emergency housing (during the past 30 days) (Risk) | 0.8%
Percentage of students who usually slept in a car, park, campground, or other public place (during the past 30 days) (Risk) | 0.7%
Percentage of students who did not have a usual place to sleep (during the past 30 days) (Risk) | 0.5%

Data statistically unreliable (DSU) indicates less than 100 respondents.
2017 YOUTH RISK BEHAVIOR SURVEY

Student Connectedness - Protective Behaviors

- Percentage of students who disagree or strongly disagree that they feel alone in their life (Protective)
  - Kodiak Island Borough School District: 49.3%
  - Alaska Statewide: 55.5%

- Percentage of students who would feel comfortable seeking help from at least one adult besides their parents if they had an important question affecting their life (Protective)
  - Kodiak Island Borough School District: 82.1%
  - Alaska Statewide: 82.0%

- Percentage of students who had at least one parent who talked with them about what they were doing in school about every day (Protective)
  - Kodiak Island Borough School District: 27.1%
  - Alaska Statewide: 37.4%

- Percentage of students who agree or strongly agree that their teachers really care about them and give them a lot of encouragement (Protective)
  - Kodiak Island Borough School District: 64.7%
  - Alaska Statewide: 59.0%

Data statistically unreliable (DSU) indicates less than 100 respondents.
2017 YOUTH RISK BEHAVIOR SURVEY

Student Connectedness - Protective Behaviors

- Percentage of students who agree or strongly agree that their school has clear rules and consequences for behavior (Protective)
  - Kodiak Island Borough School District: 61.4%
  - Alaska Statewide: 66.8%

- Percentage of students who agree or strongly agree that in their community they feel like they matter to people (Protective)
  - Kodiak Island Borough School District: 50.2%
  - Alaska Statewide: 52.0%

- Percentage of students who spend one or more hours helping people without getting paid, or volunteering at school or in the community during an average week (Protective)
  - Kodiak Island Borough School District: 61.6%
  - Alaska Statewide: 54.4%

- Percentage of students who take part in organized after school, evening, or weekend activities on one or more days during an average week (Protective)
  - Kodiak Island Borough School District: 65.0%
  - Alaska Statewide: 54.5%

Data statistically unreliable (DSU) indicates less than 100 respondents.
