**KIBSD Health Plan:**

1) **Daily at home screening:** Parents will assess students for symptoms of COVID-19 before sending them to school.

2) **Daily at school screening by teachers:** As students arrive to their classroom the teacher will be taking temperatures and asking students how they feel.

3) **Nurse Screening:** If a child is symptomatic anytime during the school day they will be sent to the school nurse for further assessment.

### Illness/ Sick policies will change depending on the current KIBSD risk level:

| Nurse Assessment in Separate Assessment/ Isolation Room | Student found to have *any* the following COVID-19 Symptoms:  
- Fever or chills  
- Cough  
- Shortness of breath or difficulty breathing  
- Fatigue  
- Muscle or body aches  
- Headache  
- New loss of taste or smell  
- Sore throat  
- Congestion or runny nose  
- Nausea or vomiting  
- Diarrhea | Students no longer in school buildings |
| Student found to have the following:  
- Fever at or above 100.4°F  
- Vomiting  
- Diarrhea  
- Undiagnosed, new, and/or untreated skin condition (rash, hives, etc.)  
- Other Symptoms of COVID-19 | Student will be isolated and sent home from school and may return to school:  
- When it has been **24 hours since they had a fever (without the use of medications such as Tylenol & Ibuprofen)** AND all of their symptoms are improving.  
- If the student has a negative COVID-19 test, they may return to school once it has been 24 hours since they had a fever *without the use of medications such as Tylenol & Ibuprofen* AND all of their symptoms are improving.  
- If the student does not get a COVID-19 test or if their test is positive, they must stay home for a minimum of 10 days. They may return when 10 days have passed, they have not had a fever in 24 hours *without the use of medications such as Tylenol & Ibuprofen*, AND all of their symptoms are improving. Students and staff who test positive for COVID-19 must stay home for a minimum of 10 days, even if they are asymptomatic. | Contact your child’s doctor’s office with any concerns of COVID-19. |

- When it has been **24 hours since they had a fever (without the use of medications such as Tylenol & Ibuprofen)** AND all of their symptoms are improving. | |

• If the student has a symptom that is not new and is associated with a chronic medical problem, they should provide documentation from a physician, physician assistant, or nurse practitioner that clarifies that this symptom is part of a non-COVID-19 chronic medical problem. Students will not be excluded from in-person school for that symptom as long as it has not worsened and they have no new symptoms. Any new or worsened symptoms associated with COVID-19 should be regarded as possible COVID-19.
