KODIAK PUBLIC HEALTH &
KIBSD REGISTERED NURSES

WHERE WILL IT TAKE PLACE?
KHS AUDITORIUM FOYER

Students under 18 must be accompanied by a parent or guardian.

WHY GET THE VACCINE?

The COVID-19 vaccine helps protect you from COVID-19 infection and severe disease.

It is safe and highly effective. Vaccination is a safer way to build immunity and is an important tool to help stop the pandemic.

Asymptomatic infections can still spread the virus through schools and sports teams, affecting not only other children, but also at-risk adults.

While most infected children usually experience minimal symptoms, some can develop severe illness. Much is still being learned about "long covid" where symptoms persist in patients previously diagnosed with COVID-19.

We understand that the decision to vaccinate is a personal and family choice. KIBSD does not maintain a stance on vaccination for COVID-19, we only seek to provide an additional opportunity for those who are interested and eligible.

Your student's vaccination status does not prohibit them from taking part in any school or extracurricular event. COVID-19 TESTING may be required for participation in certain activities.

PUBLIC WALK-INS WELCOME!

★ Cool Swag and Door Prizes!
